ROTARY CLUB OF THANE CREEKSIDE NEWSLETTER

FROM THE PRESIDENT'S DESK

BLESSED ONES WHO HAVE TASTED THE NECTAR OF "DAAN BHAV" AND BELIEVE IN DONATION

President, Rtn Santosh Rawat

Dear esteemed members of the Rotary Club of Thane Creekside,

I want to express my heartfelt appreciation for your unwavering dedication to supporting The Rotary Foundation (TRF) through your generous donations in previous years. You all know the importance of the Rotary Foundation and are the blessed ones who have tasted the nectar of "Daan Bhav" and believe in donation. I am here to request everyone to come forward for TRF donations with open arms, help the needy ones, and also become elite members of prestigious recognition like Paul Harris Fellow or Paul Harris Society. We have to actively participate in projects centered around disease prevention and treatment. Your past commitment is truly commendable and serves as a beacon of inspiration for us all.

As Rotarians, we understand the power of collective effort, and together, we illuminate lives just as the vibrant Diwali lights brighten the darkness. Your involvement in these initiatives not only brings hope to those in need but also exemplifies the Rotary spirit of service above self.

On the occasion of Diwali, the festival of lights, may the glow of positivity and goodwill surround you and your loved ones. Wishing each one of you a joyous and prosperous Diwali, followed by a New Year 2024 filled with accomplishments, success, and the fulfillment of our shared mission to serve our community.

May the coming year be a testament to the positive impact we can create together. Happy Diwali and a wonderful New Year ahead!

Yours in Rotary service,
Rtn Santosh Rawat
Club President

NEWS FROM ROTARY INTERNATIONAL

United States

After a 2021 tornado and subsequent electrical fire damaged the African American Museum in Bowling Green, Kentucky, a Rotary club in the city acquired a \$10,000 disaster relief grant from District 6710 to help restore the museum. But “we didn’t just want to be handing out the check,” says Vickie Elrod, a past president of the Rotary Club of Bowling Green. “We wanted to get boots on the ground to get involved with the preservation of those artifacts.” About a dozen Rotarians attended workshops on archiving, and the club is assisting the museum in digitizing documents. They include records on Shake Rag, a once-vibrant district settled by former slaves and soldiers who fought for the Union in the Civil War. The financial assistance enabled the museum to work with a conservator on preserving its uniforms and other clothes. The museum reopened in August, and Rotarians continue to assist with cleaning damaged artifacts, pictures, and equipment.

MEMBERS’ SPEAK

Something to Laugh about

During my School days, After getting the first beating on my hands from the teacher, I used to wipe my hands on my trousers and then only take the second one! I was very particular about cleanliness. 😊

All my teachers used to stand and take the classes... You know the reason? Respect! They respected me so much... Nothing else 😊

During my school days, my teachers used to often request me to bring my father as they were afraid of telling me anything, lest they offend me 😊

My teachers were very fond of reading what I had written... In fact they would make me write it a hundred times so that they can read it again and again... 😊

Many times the teachers have thrown their valuable chalks to me without me asking for it. 😊

Many times my teachers have made me stand outside the class to ensure 'Z' category security while they were teaching.

Many times I have been asked me to attend lower classes to assist those teachers evaluate the students... 😊

How many times I have been honoured/elevated by asking me to stand up on the bench with all others looking up to me

How many times I have been given a break from class to enjoy the sunshine & fresh air, when most others were sweating/choking inside the classroom 🌞🌿

As I knew everything, the teachers used to appreciate my knowledge and have told me many times.....Why do you come to school? Why can't you do something else instead 🤔

Hmmmm Those were golden young days!

It's how you look at it that matters ... 😊

Good thoughts

A Failure is like a Fertilizer.

It stinks surely, but it makes things grow faster and better in the future
